WE VALUE SAFETY

Mission Statement

The goal of the Safety and Maintenance Council (SMC) is to provide membership with the best possible resources to enhance current and future safety processes and to recognize members for safety achievements. The intent is to educate and support membership in order to improve the safety of employees as well as the general public.

The SMC works to ensure that members stay up to date on key topics while creating opportunities to meet other safety professionals and network within the industry.

WE PROMOTE SAFETY

The SMC works all year to bring the latest news, the most informative experts, and the best industry practices to its members.

Here's how:

- Meetings every other month offer peer networking and industry experts presenting and discussing current safety related issues
- Roadside Inspection Program brings members together with the Indiana State Police to learn what happens in a roadside inspection.
- Department of Transportation (DOT), Commercial Motor Vehicle (CMV), and North American Transportation Management Institute (NATMI) workshops add a level of hands-on educational value to members throughout the year.

WE REWARD SAFETY

The IMTA staff and council members bring your company a ready-made system for recognizing quality among your drivers and safety personnel.

Here's how:

- Truck Driving and Technician Championships, held every year, identify the best in Indiana and qualify them for national competition.
- Drivers, Technicians, Safety & Maintenance Professionals and Fleets are honored at the annual Safety Banquet.
- Master Truck Drivers are honored for years of accident-free service and acts of valor.
- FREE attendance to SMC meetings which are held every other month on the topics of Safety, Security, DOT Regulations, and MORE.
- Ongoing recognition of our safety professionals throughout our weekly and annual publications.
